## **DETAILED ACTION**

### ***Double Patenting***

Claims 1 – 54 are provisionally rejected under the judicially created doctrine of double patenting over claims 36 – 68 of copending Application No. 10/291,187. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows: both the instant application and copending Application No. 10/291,187 are directed to an absorbent composite comprising a water-insoluble fiber and a superabsorbent material wherein the absorbent composite has a specific intake rate and a liquid lock-up fraction.
